ABSTRACT

This is the 13th in a series of catalogues of ERIC documents of interest to teachers and researchers in foreign languages and linguistics. This list consists of documents processed into the ERIC system by the various clearinghouses from October 1973 through March 1974 and is divided into categories adapted from the American Council on the Teaching of Foreign Languages (ACTFL) Bibliography. Cross-references by subcategories are also provided. The format of the 377 entries is that used in the ERIC system, excluding descriptors and resumes. (Author/PMP)

ERIC Documents on Foreign Language Teaching and Linguistics: List Number 13

Compiled by PETER A. EDDY, *Center for Applied Linguistics*

THIS IS THE THIRTEENTH in a series of catalogues of documents of interest to teachers and researchers in foreign languages and linguistics which have been processed into the ERIC (Educational Resources Information Center) system. List Number 1 appeared in the December 1968 issue of *Foreign Language Annals* (*FLA*), and subsequent lists were published regularly in the March and October issues through October 1973. List Number 12 appeared in the May 1974 issue of *FLA*.

As in previous lists, the following contains documents processed by ERIC over a limited period of time; all entries appeared in the monthly ERIC abstract journal *Resources in Education* (*RIE*), from October 1973 through March 1974. *In order to make this list as useful as possible, several changes have been made in the compilation procedure and format.*

First, a careful search was made of *RIE* citations from all ERIC Clearinghouses; all documents whose abstracts revealed some relevance to research or teaching in languages and linguistics are included. Second, this list is divided into categories adapted from the ACTFL Bibliography. Cross-references by subcategories are also provided. It is hoped that the listing of ERIC documents in a format close to that of the Bibliography will result in the existence of two complementary resources for research.

ACTFL Bibliography categories are included only when relevant entries are available. Several categories and subcategories have been created in order to make the ERIC documents more accessible. For example, sections on Communication Theory and Sensory Disadvantaged have been added to the Physiology and Psychology of Language Learning section. Categories on Bilingual Education, English as a Second Language and FLES have also been included.

The bibliographic form of entries has been changed. The form in the present list is that used in the ERIC system, with minor modifications. Item numbers heading each entry run consecutively and continue the sequence of previous lists. ED numbers and references to issues of *RIE* where the full document résumé may be found conclude each entry.

How to use this Document List. In order to function as a useful research tool, this list *must* be used in conjunction with other components of the ERIC system: the abstract journal *Resources in Education* (*RIE*) and an ERIC microfiche collection. This list aids the researcher by placing at his fingertips a grouping of virtually all ERIC documents from October 1973 through March 1974 which deal with research and teaching in language and linguistics. Document abstracts may be located in *RIE* by ED number; volume and page reference to *RIE* are found at the end of each citation. *Resources in Education* (*RIE*) may be found in many college, university, and public libraries and in some school resource centers. It may also be ordered from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 (subscription per year: domestic $38.00; foreign, $47.50; single issue, $3.25).

How to obtain ERIC Documents. Most of the documents in this list may be read on microfiche at one of the more than 550 ERIC collections in the United States and abroad. These collections are located in education libraries at colleges, universities, and some school systems, and at all ERIC

Clearinghouses. For a listing of the microfiche collections nearest you, contact: the Clearinghouse on Languages and Linguistics at the address concluding this introduction.

Either microfiche or hard copy reproductions of most documents listed in *RIE* may be obtained directly from the ERIC Document Reproduction Service (EDRS), Computer Microfilm International, Inc., P.O. Box 190, Arlington, VA 22210. For documents *not* available from EDRS, a mailing address and price are given in the résumé entry in *RIE*.

The ERIC Clearinghouse on Languages and Linguistics is interested in serving all ways possible the professional community of language and linguistics teachers and researchers. Do not hesitate to send us questions or suggestions regarding this list or any other aspect of our operation.

7. Using Community Resources in Foreign Language Teaching, by Stephen L. Levy, 1975. Available soon from EDRS.

8. A Selected Bibliography of Films and Videotapes on Foreign Language Teacher Training, by Peter A. Eddy, 1975. Available soon from EDRS.

CAL·ERIC/CLL SERIES ON LANGUAGES AND LINGUISTICS

ERIC (Educational Resources Information Center) is a nationwide network of information centers, each responsible for a given educational level or field of study. ERIC is supported by the National Institute of Education of the U. S. Department of Health, Education, and Welfare. The basic objective of ERIC is to make current developments in educational research, instruction, and personnel preparation more readily accessible to educators and members of related professions.

The ERIC Clearinghouse on Languages and Linguistics (ERIC/CLL), one of the specialized clearinghouses in the ERIC system, is operated by the Center for Applied Linguistics. ERIC/CLL is specifically responsible for the collection and dissemination of information in the general area of research and application in languages, linguistics, and language teaching and learning.

In addition to processing information, ERIC/CLL is also involved in information synthesis and analysis. The Clearinghouse commissions recognized authorities in languages and linguistics to write analyses of the current issues in their areas of specialty. The resultant documents, intended for use by educators and researchers, are published under the title CAL·ERIC/CLL Series on Languages and Linguistics. The series includes practical guides for classroom teachers, extensive state-of-the-art papers, and selected bibliographies.

The material in this publication was prepared pursuant to a contract with the National Institute of Education, U. S. Department of Health, Education, and Welfare. Contractors undertaking such projects under Government sponsorship are encouraged to express freely their judgment in professional and technical matters. Prior to publication, the manuscript was submitted to the American Council on the Teaching of Foreign Languages for critical review and determination of professional competence. This publication has met such standards. Points of view or opinions, however, do not necessarily represent the official view or opinions of either the American Council on the Teaching of Foreign Languages or the National Institute of Education.

This publication will be announced in the ERIC monthly abstract journal Resources in Education (RIE) and will be available from the ERIC Document Reproduction Service, Computer Microfilm International Corporation, P.O. Box 190, Arlington, Virginia 22210. See RIE for ordering information and ED number.

For further information on the ERIC system, ERIC/CLL, and the CAL·ERIC/CLL information series, write to ERIC Clearinghouse on Languages and Linguistics, Center for Applied Linguistics, 1611 North Kent Street, Arlington, Virginia 22209.
